DETAILED ACTION

EXAMINER'S COMMENT

Claims 32-39 were withdrawn from consideration due to a previous restriction requirement, but Applicant has amended these claims so as to now depend on independent claim 9. Such action has been approved by the examiner.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 12, line 6, after "lighting fixture", --, having a first dimension less than 2.5 inches,-- in order to avoid lack of proper antecedent basis with regard to claims 44-50.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an apparatus having a lighting fixture to generate variable color radiation to illuminate a liquid and method thereof which has a first dimension less than 2.5 inches, said first dimension being essentially normal to the portion of the inner surface of the one of the pool and the spa when the lighting fixture is mounted on the portion of the inner surface (claims 9 and 31); said lighting fixture, having a first dimension less than 2.5 inches, comprising at least one mounting mechanism to mount the lighting fixture to the inner surface and said inner surface being formed from at least

Application/Control Number: 10/040,252

Art Unit: 2821

one magnetic material and said at least one mounting mechanism including at least one magnetic mechanism to mount the lighting fixture to the inner surface (claim 12); said lighting fixture being adapted to be mounted on the portion of the inner surface such that the lighting fixture does not protrude through the portion of the inner surface (claim 28). The remaining claims 10, 11, 13-16, 18-27, 29, 30, 32-39 and 41-55 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 9-16, 18-39 and 41-55.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
